- 308** line 14: Replace “approximation algorithms which yield a feasible solution whose value is not worse than  $3/2$  of the optimal value in the first case, and  $4/3$  of the optimal value in the second case.” with  
“two approximation algorithms which yield, in both cases, feasible solutions whose value is not worse than  $3/2$  of the optimal value, and  $4/3$  of the optimal value, respectively.”
- 310** line 25: Replace “Bandelt, Crama and Spieksma [67]” with “Crama and Spieksma [200]”
- 310** line 26: Replace “cost coefficients  $c_{ijk} = a_i b_j c_k$ .” with “cost coefficients.”
